

Azienda Agricola Corbucci

The **Corbucci Farm** extends over 25 hectares among vineyards and olive groves, on well drained and sunny land. The vines grown are Sangiovese, Merlot, Cabernet Sauvignon, Canaiolo and Trebbiano; pruning is careful and vinification takes place in steel and cement tanks and then in oak barrels.

The *cantina* produces different labels, from **Chianti DOCG** to **Vernaccia di San Gimignano** and **Riserva di Chianti DOCG** aged for 24 months in small oak barrels.

The care with which Francesco Corbucci and his collaborators manage the farm is what makes the wines of Cantina Corbucci appreciated internationally. Their passion is contagious, the heartfelt welcome of the entire team is what makes each tasting a memorable and enjoyable experience ... Seizing Francesco's full strength, a guest describes him with words we can't help but share: *the typical Tuscan warmth, an old-fashioned romanticism, exceptional knowledge and a really superlative presentation of wines ...*

The farm is open to the public every day.
