

La Grotta dell'Eremita

La Grotta dell'Eremita is a farmhouse surrounded by greenery on the edge of a dense holm oak forest. Here Alice cultivates her great passion: horses, which you can get to know and ride in her "Il Baio Oscuro" stables.

The equestrian center takes its name from the dark brown coat of its specimens and offers riding courses, horseback riding or riding lessons, to allow beginners to quickly gain confidence in the saddle and experts to have fun, riding along the Via Francigena.

And if the riders find themselves hungry after their horseback ride, they can also decide to stay in the garden or in a room of the farmhouse to refresh themselves with house wine and cold cuts!
