

Santa Lucia farm

The Gasparri family has been running the **Santa Lucia farm** and producing and selling wine and olive oil for generations. Over 120 hectares of Chianti and IGT vineyards are harvested every year, for quality wines that are strictly made with natural methods. “We balance technology and tradition – they say – that allow us to keep up with the times and be competitive by offering the highest quality of our products”.

In addition, the winery has over 4000 olive trees: the varieties of Frantoio, Leccino, Pendolino and Moraiolo olives, carefully harvested by hand and the consequent cold pressing, give a balanced extra virgin olive oil. The winery can be visited by appointment. Here you may also request a *wine tasting*. You can also taste and buy Santa Lucia’s products in the three stores in Empoli, Volterra and Aulla.
